

## CLUSTER MAILBOX REQUIREMENTS- BUILDING DEPARTMENT

Please verify with the local U.S.P.S. Postmaster regarding the need for Cluster Mailboxes for this subdivision. If required by the Postmaster, submit the following applicable details below on all the drawings pertaining to the LDP, Site Development Plan and Final Plat as required for plan review by the Building Inspections Department:

(Please Note: After the Final Plat has been approved, apply for a separate Building Permit with the Cherokee County Development Service Center specific to the designated areas for cluster mailboxes and vehicle parking)

- Identify the locations of the cluster mailboxes and parking on the LDP, F.P. & Site Plans.
- Indicate at least one van accessible ADA parking space with adjoining access aisle including the proper signage, hard surface pavement and designated access aisle striping in compliance with the 2010 ADA Standards.
- Provide an accessible route from the accessible parking space/s to the cluster mailboxes in compliance with the 2010 ADA Standards.
- Provide the total number of parking spaces for Cluster Mailboxes as indicated by designer per size of sub-division and designed to meet the requirements of the Cherokee County Engineering Dept.
- If a roof structure will be constructed, separate architectural drawings with structural details will be required to be submitted with the above-mentioned Building Permit Application.
